2 Configuration Overview

JavaScript

```
{
        }
    }
}
```

3 Detailed configurationvariables

The configurationfile of the "highticket" function is located in the configs/plugins directory and is named highticket.json. An explanation of the variables follows:

Variable	Allowed values	Description
`enabled`	`truefalse`	You can (de)active the plugin with this variable.
`percentage`		`percentage` is an object of key => value pairs, in which the keys are the gametypes and the values the percentage of the default ammount of tickets.

List of the Battlefield 4 gametypes, or Battlefield Hardline gametypes.
